

STATINTL

JAN 28 1975

Mr. V. A. Anikayev
Glavnyi Inzhener
Glavgazoochistka
Savvinskaya Naberezhnaya 3
Moscow G-121 USSR

Dear Mr. Anikayev:

According to the agreement reached during the Third Meeting of the US/USSR Joint Committee on Cooperation in the Field of Environmental Protection, three projects, previously called subgroups (Gaseous Emissions Abatement, Particulate Abatement Technology, Process Modification and Improvement), were defined as the basis for the program of the Stationary Source Air Pollution Control Technology Working Group. It is my understanding that it was also agreed that three project leaders are to be named from both the US and the USSR side and communications relating to each project are to be carried on directly between these individuals. The Working Group is to coordinate the efforts of the projects.

On the US side, Dr. Philip S. Lowell will be the leader for project I-2.1, Gaseous Emissions Abatement; Mr. Paul W. Spaitte will be the leader for project I-2.2, Particulate Abatement Technology; and Mr. T. Kelly Janes will be the project leader for I-2.3, Process Improvement and Modification.

All the communications relating to the technical aspects of activities within each project should be addressed directly to these project leaders. All matters relating to the activity of the Working Group should continue to be sent to me.

The addresses of the project leaders are:

Dr. Philip S. Lowell
Principal Scientist
Radian Corporation
8500 Shoal Creek Boulevard
P.O. Box 9948
Austin, Texas 78766 USA

Mr. Paul W. Spaite
6315 Grand Vista Avenue
Cincinnati, Ohio 45213 USA

Mr. T. Kelly Janes
Control Systems Laboratory
EPA-NERC
Research Triangle Park
North Carolina 27711 USA

As the new year for implementation of the projects has already started, I would appreciate being informed of the names of the USSR side project leaders in the Stationary Source Air Pollution Abatement Technology Working Group. We also need the addresses of the project leaders and the directions for mailing of the materials to them.

Best wishes for the New Year.

Sincerely yours,

Richard E. Harrington
Director
Air Pollution Control Division
